### PROJECTS

#### • DRM

GitHub : [DRM WEB](#)

Role: Frontend Developer | Technologies: HTML, CSS, Bootstrap, CSS Keyframe Animations

Developed and designed a responsive website for a Digital Rights Management (DRM) system. Implemented modern web technologies such as HTML, CSS, and Bootstrap to create an engaging and user-friendly interface. Integrated CSS keyframe animations to enhance the website's visual appeal and improve user experience. Focused on ensuring cross-browser compatibility, mobile responsiveness, and a smooth, dynamic interface.

#### • ProVest

GitHub : [PROVEST WEB](#)

Role: Frontend Developer | Technologies: HTML, CSS, Bootstrap

Developed a property management website named "PROVEST Web" aimed at providing users with an intuitive platform to explore and manage property listings. Designed the website with modern frontend technologies, including HTML, CSS, and Bootstrap, ensuring a responsive and visually appealing interface. The project focuses on showcasing properties and enhancing the user's browsing experience.
